

Digital Signage Turnkey Solution

Effective Business Communication

**Image for informational purposes only, final design may vary.*

Alveni has developed a digital signage turnkey solution to implement a communication channel between your company and its different audiences; like customers, employees, suppliers or distributors.

This solution allows you to display relevant information such as company's access policies, safety notices, quality and performance indicators, as well as relevant hygiene information about COVID-19, which is so important in this health contingency.

Our Digital Signage solution includes software, hardware and content design to implement this communication channel through images, graphics, videos and real-time content.

Some of the Benefits of using Digital Signage in your company are:

- **Increases information retention**
- **Reduces administrative costs**
- **Facilitates the implementation of internal processes**
- **Improves internal communication**
- **Creates a positive perception of your company**
